COMPANY OVERVIEW

BOA LLC delivers scalable logistics, expeditionary mission support, and end-to-end supply chain solutions to sustain operational readiness in contingency and high-demand environments. Led by military veterans with over **18 years** of global logistics and senior program management experience, we have successfully managed **multi-billion dollar** defense portfolios. Our field-proven past performance includes directing the **\$1.5B** Air Force Contrac, providing critical aviation and missile material fulfillment for the Department of the Army, and education, training, and equipment to **SEDENA/SEMAR/Royal Bahamas** through DSCA. We specialize in cross-functional procurement, rapid asset mobilization, and eliminating complex supply chain bottlenecks worldwide.

CORE COMPETENCIES

- ✦ **End-to-End Supply Chain Management:** Directed the acquisition and global transport of commercial and military essential assets by air, land, sea, and rail.
- ✦ **Program Management & Acquisition:** Deep expertise in **FAR/DFARS** compliance, proposal pricing strategy development, and pre-and post-award contracting functions.
- ✦ **Expeditionary Logistics & Contingency Support:** Streamlining the rapid mobilization and global distribution of mission-critical assets to OCONUS and high-demand operational environments. Experienced navigating complex supply chain bottlenecks and coordinating directly with **DCMA** to ensure continuous field readiness.
- ✦ **Strategic Sourcing & Lifecycle Procurement:** Directing full-lifecycle acquisition and material fulfillment for both commercial and defense-essential assets. Specializing in vendor network management, strict contract accountability, and optimizing high-volume procurement channels to deliver cost-effective logistics support.

PAST PERFORMANCE & EXPERIENCE REACH

Department of Defense (DoD) - U.S. Air Force (USAF)

Directed senior program management, acquisition execution, and complex lifecycle logistics for the program, managing **43 contracts valued at \$128.6M**. Oversaw material fulfillment, end-to-end distribution workflows, and vendor networks to eliminate critical bottlenecks and sustain total physical supply chain readiness for global missions.

Department of Defense (DoD) - U.S. Navy

Managed global movement of critical assets to international installations, interfacing directly with **DCMA** and subcontractors to achieve early or on-time milestones.

Department of the Army

Directed complex supply chain coordination and material fulfillment for aviation and missile weapon systems support. Managed specialized parts provisioning, vendor compliance, and rapid asset transport to sustain depot-level maintenance schedules and maximize fleet operational readiness.

Department of Defense (DoD) - Counter Narcotics/Global Threats (CNGT)

Provided programmatic guidance to deliver administrative and cybersecurity contracts. Skilled oversight and execution of **\$25M portfolios** proved instrumental in ensuring the continuous execution of mission-essential government support.

WHAT SETS BOA LLC APART

- ✦ **Proven Federal Scale:** Track record of capturing and managing massive federal IDIQs, including directing a 10-year, **\$1.5B Air Force IDIQ** and a **\$250M Navy Contracts**. Managed **\$128.6M** across 43 contracts in highly competitive federal environments.
- ✦ **Veterans of Global Execution:** We combine over **18 years** of hands-on global expeditionary logistics execution with senior program management oversight. This dual expertise ensures that weapon systems material support, acquisition compliance, and vendor operational networks align flawlessly with complex mission requirements.
- ✦ **Rapid Mobilization & Surge Support:** Demonstrated ability to coordinate the global movement of **\$40M** in mission-critical assets to OCONUS locations. Proven history of interface with **DCMA** and independent shippers to resolve bottlenecks, improving asset delivery rates by **89%**.
